UNIVERSITY OF ILLINOIS
 CONDENSED ANALYSIS OF THE OPERATING BUDGET
 FY93-94

The operating budget for the University of Illinois for FY94 is \$1,658,529,000. The budget is comprised of \$735,287,000 received through appropriation by the General Assembly of the State of Illinois, and \$923,242,000 categorized as Institutional and restricted funds which are handled through the University Treasury. The FY94 budget represents an increase from the revised FY93 budget of 2.3 percent; a 2.4 percent increase for State appropriated funds and a 2.2 percent increase for Institutional and restricted funds. A summary of the budget by Campus, University Programs, and Central Administration is presented in Schedule A. Further detail by college and departments within each campus is shown in succeeding schedules.

State Appropriations

State appropriations by the General Assembly for general operations total \$735,286,600. Of this total, \$533,314,700 is from the General Revenue Fund; \$37,194,700 from the Education Assistance Fund; \$14,646,400 from the Agricultural Premium Fund; \$1,738,200 from the Fire Prevention Fund; \$290,000 from the Real Estate Research and Education Fund; and \$148,102,600 from the University Income Fund (primarily tuition). These funds are shown in Schedules A and B and may be allocated by the Board of Trustees for such purposes as the Board approves.

While overall FY94 State appropriations increased from the FY93 appropriation by \$17.3 million, general funds support for operations increased \$11.1 million. Increased tuition funds of \$6.2 million represents 36 percent of the increased appropriation. The new funding was dedicated to:

Salary Improvements	\$ 3.8 million
Workers Compensation	0.8
Library Acquisitions	1.0
Operation of New Facilities	1.8
Program Improvements	7.8
Financial Aid	0.3
Special Services	1.3
Retirement	0.5
	\$ 17.3 million

In addition to these increases, internal reductions and reallocations will continue to be required throughout the University. These reductions have been imposed more heavily on administrative units than on academic units, but all aspects of the University's programs and operations will feel the effects of these reductions.

Institutional and Restricted Funds

Institutional and Restricted funds total \$923,242,000. Institutional funds of \$119,372,000 are budgeted from costs recovered on grants and contracts, including balances brought forward from FY93. These funds are budgeted primarily to meet the indirect operating costs associated with the University's sponsored research programs. Restricted and Auxiliary funds total \$803,871,000. These funds are comprised of Federal appropriations of approximately \$20 million; U. S. grants and contracts \$193 million; Medical Service Plan \$49 million; private gifts and grants \$48 million; State of Illinois grants and contracts \$34 million; other sponsored grants and contracts \$68 million; and sales and services of departments for \$221 million. Auxiliary Enterprises (Housing, Bookstores, Union Buildings, etc.) total \$171 million.

Reserve Provisions for Auxiliary Enterprises and Activities

The "University Guidelines 1982", adopted by The Board of Trustees on November 18, 1982, required the University to maintain accounting entities for Auxiliary Enterprises and Activities. Auxiliary Enterprises are operations which are not directly related to instruction, research, or service organizational units but which support the overall objectives of the University. Activities are functions which are self-supporting in whole or in part and are directly related to instructional, research, or service units. Each entity consists of undertakings which are substantially similar and rationally related. In accordance with the "University Guidelines 1982", these entities may maintain capital reserves for equipment replacement and extraordinary maintenance. Reserves are funded from current entity operating funds and conform with criteria as provided in the "University Guidelines 1982".

The extraordinary maintenance reserves of the Auxiliary Facility System and the Willard Airport Project are covered under provisions of their respective bond issues. Maximum reserve provisions are recommended as outlined in Schedule C.
